

DIOCESE OF FALL RIVER  
CATHOLIC SCHOOLS ALLIANCE

---

January 5, 2023

Dear Members of the St. John Paul II School Community,

I am writing to update you on the progress of our President's search.

The President Search Committee and our consulting team at Carney Sandoe & Associates have been busy interviewing talented candidates for the position. As you can imagine, it is exciting to meet these leaders and hear about their diverse experience, talents, and passion for educating students.

At this stage, we have invited a group of finalists to visit campus next week. They will meet St. John Paul II students, faculty, administrators, and parents. Each candidate will be introduced to the school community a few days before their visit to campus. Everyone who meets the finalists will have the chance to submit an anonymous survey to share their observations with the Search Committee. We hope that the process will be concluded in the next few weeks, but we are determined to take as long as is needed to find the very best match for St. John Paul II School.

It is remarkable to all of us on the President Search Committee to see how St. John Paul II's compelling mission has brought such clarity and focus to this search process. We are proud to represent St. John Paul II to this accomplished and outstanding group of candidates, and we are grateful to have such support and interest from the school community.

Sincerely,

Daniel Roy  
Superintendent of Schools
